Medicine Meta - profile

Validation and review

- **Consensus – Considerable**
- **But elements
not adequately addressed
or insufficiently emphasised
not assessed
or inadequately assessed**

Medicine Meta - profile

Needing further consideration

Professionalism

Teamwork

Leadership & Management

Communication

Disagreement

Should ability to apply biomedical sciences in patient care be explicitly expressed in the meta – profile

Decision No – because integral to all aspects of the profile

Medicine Meta - profile

Management

An area of serious curriculum and assessment weakness

Communication

Another area for concern particularly related to language competence and communicating in the mother tongue
